

Storage furniture

ConSet offers an assortment of storage furniture which includes pedestals, shelving units and bookcases available in beech and maple wood veneers. You can add a base plinth underneath the bookcases and shelving units and also add casters or decorative legs. They can be grouped together or used individually.

The pedestals are available with either 3 or 4 drawers and are supplied with ball bearing slides for smooth and durable operation. All units are supplied with quality cam locks on the upper drawer, casters (2 locking) and matching wooden drawer pulls.

The metal storage units are modular and have a contemporary design appeal. The steel boxes are powder coated in silver and black and multiple configurations are possible. The available casters are high quality and match the silver and black combination of the boxes.

See specifications and accessories range page 31
